

SCIENTISTS GATHER IN BOSTON

DEDICATE TEMPLE

Christian Science Edifice in Boston Formally Opened.

THOUSANDS TURNED AWAY

Temple Costing Over Two Million Dollars and Taking Two Years to Complete, is Dedicated in Boston.

BOSTON, June 10.—One of the most remarkable religious demonstrations ever witnessed in New England occurred today when the new million-dollar Christian Science temple in the Back Bay district was dedicated. From every state in the Union and from all parts of the world came people to be at the dedicatory services. It was estimated that more than 40,000 Christian Scientists came in the city today. Six services were held to accommodate the vast throngs, but even then many were unable to gain admission to the temple. The seating capacity of the new edifice exceeds 5000 and at each service today hundreds stood in the aisles and in the rear of the church. The first service was held at seven this morning. As early as one o'clock hundreds of Christian Scientists were standing in line waiting patiently for the doors to open. At 5 o'clock there were at least 3000 in the street opposite the church and an hour later the number had swollen to 10,000. As quickly as one service was completed the congregation departed and the temple was filled again and there were thousands of people on the outside who were unable to get in. The services today were identical and each service about two hours long.

BEAUTIFUL EDIFICE.

Christian Scientists Dedicate Addition to Mother Church.

BOSTON, June 10.—The dedication today of a magnificent new addition to the Mother Church of the Christian Science denomination, in Boston, is an event of the highest significance in the history of this religious body. The interest of all Christian Scientists is centered on Boston and thousands from all parts of the world are thronging the historic old city. The regular Communion of the Christian Science Church always brings a multitude of its adherents to Boston, but the dedication of the new structure this year has made the attendance unusually large.

But as the result of a spontaneous recognition of Mrs. Eddy's life work and of the imperative demands of the marvelous growth of the movement, expressing the liberality of thousands of Christian Scientists, and embodying the best

CHRISTIAN SCIENCE TEMPLE.

in architectural design and modern construction, this new building is logically the central feature of this year's gathering, although Christian Scientists say that they lay the greater stress upon the spiritual awakening which has inspired to generous liberality expressed. The church is one of the largest, if not the largest in the United States, its seating capacity being 5012. Its style of architecture is Italian Renaissance. The pews and other interior woodwork finishings are of mahogany. The walls are Concord granite and Bedford stone, with beautiful decorative carvings. The inside finish is a soft gray to harmonize with the Bedford stone columns supporting the dome. The height of the building to the top of the lantern, is 224 feet, just one foot higher than Bunker Hill Monument. The dome is 82 feet in diameter and is covered with terra cotta to match the Bedford stone. The building presents as a whole, dignified and impressive appearance, and it is already recognized as one of the landmarks of Boston.

The first floor contains the various offices, a large foyer, Sunday-school room, cloak-room, etc. There are twelve exits and seven staircases. The cost of the building is something less than two million dollars. The new chimes consist of eleven bells made by the Menckly Bell Company of Troy, N. Y. The largest bell, which is C sharp, weighs 4000 lbs. The smallest bell weighs 400 lbs. The organ is necessarily one of the largest in the world. It is strictly up-to-date and contains all modern appliances.

Christian Science was discovered by Rev. Mary Baker G. Eddy in 1866. Referring thereto in her book entitled Retrospection and Introspection, she declares "During twenty years prior to my discovery I had been trying to trace all physical effects to a mental cause; and in the latter part of 1866 I gained the Scientific certainty that all causation was Mind, and every effect, a mental

OVER TWENTY ARE INJURED IN STREET CAR COLLISION

PORTLAND, June 10.—More than twenty persons were injured today, some dangerously, in a head-on collision between two loaded Woodlawn cars of the Portland Railway Company at the intersection of Union and Holladay avenues. There is a considerable incline on Union avenue just beyond Holladay and on this the incoming car which was supposed to continue on past Holladay,

PORTLAND ELECTRIC PLANT BURNS.
PORTLAND, June 10.—A special to Portland from Oregon City states a fire that originated in crossing wires in the Portland station did immense damage to the plant of the Portland General Electric Co., at Oregon City. Three of the largest dynamos were destroyed, and two others ruined by water and the large switch-board was burned out. The accident happened about 8 o'clock and in almost an instant the streets of Portland and Oregon City were in darkness. The street railways in Portland were interrupted for more than an hour and a half. Temporary arrangements have been made for street lights and for railway power, but it will be several months before the electric company will be able to resume operations.

GOREMYKIN MINISTRY HAS NOT LONG TO LIVE

In Spite of the Official Denial, the chief constitutional Democratic Organ Asserts Retirement of the cabinet Near At Hand.

ST. PETERSBURG, June 10.—Despite the official denial, belief that the retirement of the Goremeykin ministry is near at hand, was reasserted today by the Reich, the constitutional democratic organ, which apparently is looking forward to installation of a cabinet more in harmony with the lower house of parliament. Liberal organs also give credit to the report that the emperor in deference to a sentiment in the lower house has decided to suspend executions pending the enactment of a law for the abolishment of them, but the rumor finds

MIMIC WARFARE.
Whole British Fleet Engaging in Monster Demonstrations Off Irish Coast.

LONDON, June 9.—Although war is not declared the mobilization of the British fleet is practically completed. It is expected to repel an expected attack by an imaginary enemy now assembled off the west coast of Ireland and threatening a descent on England. The greatest aggregation of fighting ships ever assembled, totaling 325 warships, and 43,000 men, is participating in this mimic warfare. The force is divided into two fleets; the defense consisting of 235

vessels including 86 torpedo boats and submarines and the enemy consisting of 90 warships without torpedo boats or submarines.

GET HIM AT LAST.

BIELOSTOK, June 10.—Chief of Police Derkatchoff, against whose life several attempts have been made, was shot and killed today by several unknown persons while out driving. His coachman was seriously wounded. At the same time the secret police were attacked in another portion of town, one of them being wounded.

SENATE WILL CONSIDER THE STATEHOOD MEASURE

Conference Report on the Statehood Bill Will Be Taken Up By the Senate This Week—Sundry Civil Bill in the House.

WASHINGTON, D. C., June 10.—The conference report on the statehood bill will be taken up in the senate on Tuesday and much interest is felt on the subject. Senator Beveridge who is in charge of the report will probably call it up, but Foraker has announced that if the friends of the bill fail to, he will lead a fight to prevent an agreement on the committee's reports. On Monday, the majority report of the committee on privileges and elections will be presented in the case of Senator Smoot, but further consideration will be deferred for a time and the senate will continue the consideration of appropriation bills. The Panama sea level bill will also be discussed during the week as the opportunity offers and it will be the policy to vote as speedily as possible. It is not expected the conference report on the railroad rate bill will reach the senate in time for further discussion this week.

In the house the sundry civil bill still has the right of way and if uninterrupted, will be passed Thursday. Efforts to have the Senate change its motion respecting the railroad rate bill have failed and this measure will have to be considered in the house before a second conference can be had. It is planned to have this occur today.

One of the early actions this week will be the consideration of the agricultural bill with its worrisome meat inspection attachment. The plan is to get this bill into conference at the earliest possible moment. Members of the agricultural committee have become impressed with the necessity for haste in any action to be taken. The committee will take up the Beveridge amendment on Monday and if possible begin in a report to the house on the same or the next day. A motion will be made to disagree with all the senate amendments and ask for a conference.

BODY FOUND.

Floating in the Columbia river opposite the Kinney Cannery the badly decomposed body of Matt Hummasti, the fisherman who was drowned on May 15 last, after the steamer Costa Rica had run down the small boat in which he and his brother were, was found yesterday by H. B. Lieneweber of the Standard Oil Co. The remains were at once tied to the wharf and Coroner Pohl notified, when he removed the body from the water to the undertaking parlors. The relatives of the deceased were informed of the recovery of the body, and they identified it as that of Hummasti. Because of the circumstances surrounding the death of Hummasti and the belief that proper precautions had not been observed on board the Costa Rica, in coming down the river on the fatal night, Coroner Pohl will hold an inquest, and yesterday afternoon summoned a jury consisting of C. C. Rosenberg, Harry Twilght, Emily Houghton, C. W. Stone, W. N. Smith and William Fitzgerald. The jury viewed the remains and then the inquest was continued until today or until such time as the proper witnesses can be summoned to give testimony. Captain Snow, who was acting as pilot of the Costa Rica at the time, will be asked to give testimony, and others who may know something of the circumstances attending the sad affair. The deceased was 27 years of age at the time of his death. The funeral will take place this afternoon from the Pohl undertaking parlors at 1 o'clock, and

will be under the auspices of the Finnish Brotherhood of which order the deceased was a member.

NO SUNDAY GAMES.

NEW YORK, June 10.—There were neither professional nor semi-professional baseball games played in New York today. Police Commissioner Bigham issued instructions during the week that they should prevent playing all Sunday ball games where admission was charged either directly or by subterfuge.

BACCALAUREATE SERMON.

SYRACUSE, June 10.—Chancellor Day in his annual baccalaureate sermon today reaffirmed his attitude toward large corporations saying they were the local result of the great strides the world is making. He also issued a warning against the assumption of too much power by the President and in referring to reports of the conditions of packtown slaughter houses, said that if one hundredth part of what was been was true the people would be dying by tens of thousands.

ACCEPTS APPOINTMENT.

OTTAWA, Kas. Judge Alfred Washington Benson, of this city, who was yesterday appointed U. S. Senator to succeed Joseph R. Burton stated today he would accept the position. He will officially notify Governor Hoch of his acceptance tomorrow and leave the same day for Washington.

LONGWORTHS ARRIVES IN LONDON FOR SHORT TIME

LONDON, June 10.—After a voyage which both declared the most pleasant in their experience Mr. and Mrs. Nicholas Longworth reached London early this afternoon. The afternoon was spent in rest. In the evening there was a family dinner which was attended by members of the embassy staff. Tomorrow the visitors will be given an opportunity to

see London. It has not been announced whether King Edward will entertain them, but it is expected they will dine with him at Osce Heath during Ascot week. Queen Alexandra being still in mourning for her father, is not accepting any, but court engagements and therefore will not accompany King Edward to Dorchester House on Tuesday.
